

Mike...

Thank you so much for the exemplary work at 101 Lafayette Street and also at 1265 South High St. The work that you do is a testament to the ethic that you adhere to. The quality of your craft is displayed with the intricacy that you showed in these difficult jobs.

It is because of subcontractors like you that make my company look good.

There is a definite difference from your work compared to other tile companies out there; your work is by far better over all.

Thank you once again for making us look good.

Regards,
